5-day Camp $449
3-day Camp $349

2-wk combo $749
3-wk combo $1049

The Apprentice Robocamp is planned with children age **4.5- 7years** in mind . Using LEGO WEDO, kids will learn what makes a robot dance, kick and even growl with our Robotics programming made-easy. Tickle your imagination and challenge your creativity as you embark on a discovery journey with us. Join us on a safari adventure into the wild or just get physical as you cheer on at an exciting soccer match where you get to construct your very own kicker and goalie!

This camp is a basic Robotics camp that provides fundamental understanding in learning LEGO robotics using a graphical and easy to understand interface, kids will learn programming made easy. This is a theme based fun and hands on program that will appeal to many kids aged 4.5-7 years.
Various themes are offered in order of challenge and with recommended age listed. Children of different ages, abilities and interest is sure to find something interesting.

How do i select a theme for my child?

Other than considering dates and times which will match your schedule. It will be great to find a theme that matches your child's area of interest but in the case of picking a suitable one for Robocamp App, we would like to recommend that you strongly consider the level of experience your child has with robotics as well as his/her overall ability to build with lego and understand concepts to do with cause /effect. Children have very diverse abilities and interests. Taking their skills and experiences into consideration will ensure a great learning experience for your child.

How do i pick one that suits my child level of skills and experience?

For children who are very young (age 4.5) We will always recommend our level 1 themes which are Party with the Animals and Sports savvy. Level 3 themes such as Monster Trucks, Wild Safari etc will suit older children who are school going or who may have attended our programs before. Alternatively You could also give us a call to discuss which themes may be most suited for your child.

3 Day Camps are available for all weeks and will run Monday-Wednesday.
