

Christmas Camp Schedule Nov 18- Jan 19

3/ 5 DAY Story Starter/ LEGO Engineering Camp

MyCAMP Jr is a 5 DAY LEGO ENGINEERING AND STORY STARTER CAMP Using LEGO as a powerful learning tool. We have come up with a theme based children's technology program aimed at helping younger children (aged 3-5) understand basic LEGO Engineering concepts and be adept at using cool technology whilst having a great time. Adapted from our popular MyCamp Program, Children will learn concepts of LEGO Building as well as be exposed to creative story telling using digital media. We use simple machines DUPLO LEGO so smaller hands can easily pick up the pieces and build independence in completing projects themselves.

LEARNING OBJECTIVES INCLUDE:

- ▶ LEGO ENGINEERING
- ▶ STORYTELLING
- ▶ USE OF COOL SOFTWARES FOR CREATING PROJECTS

3-day Camp
options available at
\$349
