

## 3- to 5- Full-Day LEGO Robotics and Animation Camp (for ages 7+)

Our campers will work on fun and challenging, hands-on LEGO robotics projects in the morning and move on to creative animation projects in the afternoon.

First timers will do a storyline based on a pre-planned project. Kids can create some of their own props. Repeat campers can use their creativity to weave a story using LEGO props. After completing their planning and set-up, they will try their hands making a movie with the Stop Motion software and pick up various animation skills while bringing their stories to life!
