

3 - Half-Day Roblox Game Design Camp (for ages 8+)

Roblox, one of the most popular online gaming platforms, offers a vast, creative space where users can design and play games. With its simple, intuitive tools and a thriving community, it's no surprise that many children want to learn how to create their own Roblox levels.

Our Roblox Game Design Camp focuses on teaching children how to use Roblox Studio, the official game development software used on the platform.

Children will be introduced to the basic principles of game design, specifically level creation. They will pick up essential skills and tools needed to build engaging and functional game environments. With the guidance of experienced instructors, they will create their own projects.
