

3- to 5- Half-Day LEGO Robotics Camp (for ages 4-7)

Our campers will gain a fundamental understanding of Lego Robotics through Lego WeDo 2.0.

Children will first build a robot with Lego and then learn to do basic coding to make it perform assigned functions on a graphical and kids-friendly interface. They will work on projects at their own pace, while developing logical thinking, perseverance and problem-solving skills.

Various themes are offered in order of challenge (please refer to the schedule).
