

## 5- Half-Day Designer Camp with Adobe Photoshop (for ages 7+)

Our campers will learn photo-editing and manipulation skills that are used by all graphic and product designers around the world. Children will be introduced to basic design principles, color modes, and printing standards. They will also pick up different Photoshop techniques, such as working with layers and selections, learning to crop, edit, retouch and resize images, and so on. They will each complete a project and take home a copy of it printed on their own Lego Brick Portrait!
